VISION

BRINGING GOVERNMENT SERVICES TO YOU FASTER AND EASIER

Hafa A dai. "The Calvo-Tenorio administration is committed to improving customer service and one of the ways we are able to achieve this goal is through the use of technology by making government information available to you anywhere in the world at any time of day" says Governor Calvo. Over the next few weeks agencies will be making more and more government services available to Guamanians and you can find it all here at our mobile app center. We understand that easier more accessible information and services leads to better decisions and improves the quality of our lives, with mobile applications we can get there faster, quicker and provide this information on a medium that is openly accessible to all the world.
